

SHREYAS NEELARADDI

Cloud & DevOps Engineer · AWS · Terraform · Docker · Generative AI
+91 90356 46885 | shreyas2932003@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Cloud & DevOps Engineer with hands-on experience architecting and managing AWS infrastructures, containerizing workloads with Docker & Kubernetes, and building robust CI/CD pipelines. Currently serving as an Associate Software Engineer, delivering high-availability platform environments for 100+ concurrent users while integrating Generative AI (LangChain, OpenAI, RAG) into production workflows. Adept at Infrastructure as Code (Terraform, Ansible), observability (Prometheus, Grafana), and ITIL-aligned incident management.

TECHNICAL SKILLS

Cloud & AI	AWS (EC2, S3, IAM, VPC, RDS, CloudWatch) · OpenAI API · LangChain · Prompt Engineering
DevOps & CI/CD	Docker · Kubernetes · Jenkins · GitLab CI/CD · GitHub Actions
IaC & Automation	Terraform · Ansible
Observability	Prometheus · Grafana · AWS CloudWatch
Languages	Python · Bash Scripting · SQL (MySQL) · Linux Administration
Methodologies	CI/CD · IaC · RAG Pipelines · ITIL Incident & Change Management · Agile/Scrum

PROFESSIONAL EXPERIENCE

Associate Software Engineer <i>TheSmartBridge · Hyderabad, Telangana</i>	<i>Apr 2026 – Present</i>
- Architect and manage AWS cloud environments and sandboxes supporting 100+ concurrent platform users, ensuring high availability and SLA compliance. - Provide Tier-2 technical mentorship and architectural guidance on core AWS services (EC2, S3, VPC), resolving complex deployment bottlenecks. - Collaborate with cross-functional engineering teams to optimize cloud resource allocation and improve delivery pipeline efficiency. - Integrate Generative AI tooling and advanced prompt engineering methodologies to enhance platform reliability and automate technical workflows.	

INTERNSHIPS

AI Intern <i>Agnirva – AI Internship Program (Fast Track)</i>	<i>Oct 2025 – Dec 2025</i>
- Completed 100+ hours of intensive, real-world AI and GenAI application development. - Designed and optimised LLM prompt workflows using ChatGPT and Gemini to improve accuracy and reduce latency. - Built a capstone project applying vector search and Retrieval-Augmented Generation (RAG) concepts for context-aware information retrieval.	
AI/ML Intern <i>VTU WIINNR – IT Ignition Program</i>	<i>Oct 2024 – Feb 2025</i>
- Built and maintained automated ML training and deployment pipelines using Python and GitHub Actions. - Containerised ML applications with Docker and deployed them on AWS EC2 instances. - Provisioned cloud infrastructure using Terraform and Ansible for fully automated environment setup. - Designed observability dashboards in Prometheus & Grafana, reducing mean time to resolution for system incidents.	

TECHNICAL PROJECTS

CI/CD Pipeline Automation for Flask Application | *Jenkins · GitLab CI/CD · Docker · Kubernetes · Terraform · Ansible · Prometheus · Grafana*

- Engineered an end-to-end CI/CD pipeline covering automated build, test, and deployment stages.
- Containerised a Flask application and deployed it on a Kubernetes cluster for horizontal scalability.
- Provisioned infrastructure via Terraform and automated server configuration with Ansible.
- Integrated Prometheus & Grafana dashboards with alerting for proactive incident response and uptime monitoring.
- Configured AWS RDS as a managed MySQL backend, replacing a self-managed database layer.

AI-Powered Resume Screening & Interview Assistant | *Python · OpenAI API · LangChain · Streamlit · Flask · Docker Compose · GitHub Actions · MySQL*

- Developed a GenAI-powered resume screening and interview assistant leveraging OpenAI APIs and LangChain orchestration.
- Implemented vector embeddings and RAG pipelines for context-aware, hallucination-reduced candidate evaluation.
- Engineered structured prompt workflows to maximise relevance and minimise irrelevant model responses.
- Automated deployment with Docker Compose and a complete CI/CD pipeline via GitHub Actions.
- Designed MySQL schema and SQL query layer for persistent storage and fast retrieval of application data.

EDUCATION

Bachelor of Engineering – Computer Science & Engineering

2021 – 2025

Sri Sairam College of Engineering, Bengaluru · CGPA: 8.0 / 10

CERTIFICATIONS

- AWS Certified Cloud Practitioner – Amazon Web Services
- ITIL® Foundation Certificate in IT Service Management – AXELOS
- IBM / Coursera: Introduction to DevOps · Introduction to Cloud Computing · Getting Started with Git & GitHub · Introduction to Agile Development and Scrum
- DataCamp: AWS Cloud Technology & Services · AWS Security & Cost Management · AWS Boto3 in Python · DevOps Concepts · Intermediate SQL with AI · Intermediate Python for Developers · AI-Assisted Coding
